REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1, 3-4, 8, 10-11, 16, 18-22 and 53-55 are allowed.

Claims 1 and 3-4 are allowed because the prior art of record fails to disclose or suggest the inclusion of a step of determining a second relationship between the current logic state and the next logic state of a second data signal and a first delay of the first data signal is adjusted based on the first and second relationships as recited in claim 1.

Claims 8 and 10-11 are allowed because the prior art of record fails to disclose or suggest the inclusion of a transition detection block for detecting transitions of a first type and a second type of the plurality of data signals and a delay adjustment block for adjusting at least one of the data signals by adjusting at least one delay element as recited in claim 8.

Claims 16 and 18-22 are allowed for the same reasons noted in claim 8.

Claims 53-55 are allowed because the prior art of record fails to disclose or suggest the inclusion of a step of adjusting a smaller first delay amount if the current and next logic states of a first data signal are different as compared to the condition if the current and next logic states of a first data signal are the same.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
